

MUNICIPALITY OF BLUEWATER

NOTICE OF PUBLIC INFORMATION CENTRE

STORMWATER MASTER PLAN STUDY

FOR THE COMMUNITIES OF ZURICH AND HENSALL

PUBLIC INFORMATION CENTRE

The Municipality of Bluewater recently developed Stormwater Servicing Master Plans for the communities of Zurich and Hensall. The plans will provide recommendations for a stormwater servicing strategy that will be implemented in phases within each settlement area, as well as recommending best practices and strategies for addressing stormwater servicing within future development areas.

Public information sessions are planned to present details of the Master Plans to local residents in order to obtain their feedback before finalizing the plans. Representatives of the Municipality and the Project Engineers will be in attendance.
