

Ontario's Litter Cleanup Guide

**ACT on
LITTER**

Thank you for participating in a litter cleanup!

If you have questions, please visit:

www.ontario.ca/actONlitter or contact actONlitter@ontario.ca.

Promote Your Cleanup!

On the day of your cleanup have fun and share instant results in your online community.

Share 'before and after' photos of your cleanup and the site you cleaned up on social media using the hashtag #actONlitter!

CHECKLIST:

Leading up to the cleanup

- ☐ Choose a cleanup day. The Provincial Day of Action on Litter takes place the second Tuesday in May each year, but you can cleanup any day of the year!
- ☐ Identify your cleanup team participants.
- ☐ Choose a cleanup site with your participants.
- ☐ Gather protective equipment, such as gloves or a litter grabber, for the cleanup team or ensure they will be bringing their own. It is also a great idea to have hand sanitizer available.
- ☐ If cleaning up a public space, contact your municipality to identify if any permits are required to host a cleanup there and request help obtaining a permit (if applicable). If cleaning up a private space, ensure you have permission from the property owner.
- ☐ Choose a disposal method, a few examples include:
 - Personal garbage and recycling bins. You may need to speak with your condo or apartment building management about disposing through their waste collection services.
 - If no available method exists for you, reach out to your municipality to see if they can support your disposal, such as by using a city street disposal garbage can and recycling bin.
- ☐ Share important information with cleanup participants ahead of your cleanup, such as:
 - safety tips/recycling tips
 - reminder of what to bring (e.g. garbage and recycling collection bags, water bottle, appropriate clothing for the weather, a mask and gloves phone, etc.)
 - when and where you are meeting

On the day of the cleanup

- ☐ Prepare any of your coordinator materials (participant attendee list, pens, first aid kit, hand sanitizer, etc.).
- ☐ Meet your cleanup team at your scheduled meeting date, time and location.
- ☐ Go over:
 - safety requirements (i.e. wearing gloves and watching for traffic)
 - cleanup boundary
 - end time and meeting point
 - contact information
 - disposal requirements
- ☐ Use both a recycling bag and garbage bag to correctly separate recyclable materials from garbage.
- ☐ Have fun! Take photos of your progress and your cleanup team – consider taking a before and after photo of your site to show the progress. Post photos publicly to social media using the #actONlitter hashtag.

After the cleanup

- ☐ Dispose of your collected litter properly, and ensure collected recyclables are recycled. Ensure used personal protective equipment such as gloves and masks are disposed of properly and safely in a sealed garbage bag.

SAFETY TIPS!

Safety first! Review the safety tips below and take the necessary precautions during your community cleanup.

- Use personal protective equipment (gloves) or a litter grabber when picking up litter and properly dispose of your own personal protective equipment safely in a sealed garbage bin after your cleanup.
- Cleanups should take place during daylight hours and should not take place after sunset or before sunrise.
- Be mindful of unstable or slippery ground (e.g. ravines, river banks), in tunnels or near stormwater management ponds.
- Consider wearing a safety vest or brightly coloured clothing if collecting litter along a roadway.
- Do not pick up dangerous materials such as glass, barbed wire, syringes/needles, medical waste, pipes, chemicals and debris with sharp or rusted edges. Instead note down the item and the location, and after your cleanup contact your local municipality's waste management department to make them aware.
- Avoid water-filled areas such as ditches, streams or ponds. Be extra cautious in areas where there could be water or ice.
- Be careful of wild animals, insects, hives and nests, and noxious weeds such as poison ivy and giant hogweed.
- Report suspicious items to the local police department via their non-emergency telephone number or to the Ontario Provincial Police non-emergency number at 1-888-310-1122.

RECYCLING TIPS

- Use separate disposal bags for recyclables and garbage whenever possible.
- Some municipalities have a mobile waste app that you can use on the go to find out what items should be recycled versus put in the garbage – check with your local municipality and download the app in advance if available!
- Keep hazardous waste separate from garbage and recycling. Hazardous waste includes batteries, aerosol containers, fluorescent tubes, compact fluorescent lamps (CFLs), helium and propane tanks/cylinders. Remember safety first! You can always leave certain items as you found them, note down the item and the location, and after your cleanup contact your local waste management department to make them aware. Examples of hazardous waste include:
 - syringes (don't touch!)
 - batteries
 - aerosol containers
 - fluorescent tubes and compact florescent lamps (CFLs)
 - helium and propane/BBQ tanks/cylinders

CLEANUP SITE IDEAS

- trails
- common play areas in your community
- a public park
- the sidewalks along a neighborhood street
- vacant lots or parking lots (ensure you have owner's permission)
